2009-10 Season Report

Having been promoted to the Tandridge League A Division for 2009/10 the U17s started the season playing some lovely football. At the same time however they leaked too many soft goals which meant they didn't get the results the quality of their football merited. Thankfully the leaks were soon sorted and once they were the results, along with the lovely free flowing football, followed.

An excellent league cup run, all the way to the semi finals, which they lost narrowly, was matched by excellent form in the league where they won seven of their last eleven games, drawing three and losing only one. Had they started the season in this manner they could have been league champions instead of finishing a very creditable third. Some excellent new additions have been added to this already talented squad which means the future for this group of players, providing they stick together and work hard, is full of promise.
